

# One day Industry Visit to Silvassa:

**Mumbai | Oct. 13, 2017:**

50+ management students under the mentorship of Prof. Rubina Mohd and Dr. Padma Singhal, visited Silvassa primarily to have an insight of manufacturing operations at Nilkamal Industries.

Nilkamal Limited is the world's largest manufacturer of moulded furniture and Asia's largest processor of plastic moulded products. Founded in 1981, it is a INR 21.65 billion conglomerate.

Our students got a chance to meet Quality Assessment Manager who told them about the overall process on making a plastic chair, carats (boxes) and tables. Different dyes, machines and quality check unit and process were also introduced to the students.

The key learning included

- how manufacturing unit coordinates with distribution channel to meet demand
- optimum management of inventory, production and demand
- Japanese rules and techniques adopted in the manufacturing and production processes

The next visit was to Alok Industries which was founded in the year 1986. An interaction with unit supervisor helped students to understand the process of making textile from threads. Alok industries has adopted finest technology from Germany in their spinning mills and loom machine that has helped them to emerge as a market leader in their segment.

Students thoroughly enjoyed the experience and were enriched from insights shared by industry experts.
